

n – BUTYL CHLORIDE

M.F: C₄H₉Cl

Mol. Wt: 92.58 gm/mol

SPECIFICATIONS

Description	:	Clear, Color less liquid with characteristic odour
Miscibility	:	Miscible with Methanol. Immiscible with water
Specific gravity @ R.T	:	0.878 ± 0.005
Moisture content by K.F	:	NMT 0.10 %w/v
Free acidity content % w/w	:	NMT 0.10 %w/w
n- Butanol content by G.C%	:	NMT 0.10 %
Purity by G.C %	:	NLT 99.0%

PACKING

Packed in 210 Liters Capacity HDPE Drums

APPLICATIONS

Used as a raw material for making n-Butyl Lithium.
Used as a Butylating agent in the manufacture of butyl cellulose.
Used in Alkylation reactions.

Mahidhara Chemicals Private Limited
